In an effort to provide stimulus to the economy, PBOC has reduced the 7 day reverse repo rate by 10bps to 1.9%. This was the first reduction since Aug'22. Elsewhere in the US, the New York Fed survey showed inflation outlook for the 1-year horizon softening by 0.3% to 4.1% This is the lowest since May'21. CME Fed watch tool is pricing in an 81.5% probability of pause in policy rate which was 73.6% yesterday. Even the budget deficit figure in the US in May'23 rose to US\$ 240bn from est. US\$ 236 bn deficit. On domestic front, India's CPI provided comfort especially on food inflation front. IIP also surprised positively, supported by manufacturing sector.
