## Stellar performance; beats estimates

- Highest quarterly growth in the last decade supported by a strong performance across product segments in Q1CY23
- Margins impacted by inflation in agri-commodities, partly offset by better realisations; early signs of softening in key inputs
- CY23-CY24 EPS raised 6-8% on a strong Q1, translating to a revised TP of Rs 24,670 (vs. Rs 22,860); maintain BUY

**Growth at a decadal high:** NEST's domestic revenue registered healthy growth of 21% YoY in Q1CY23 with a good balance between volume growth and pricing. Export revenue grew 25% YoY. In the past four quarters, NEST has delivered double-digit growth across product segments. Q1CY23 marks the highest quarterly growth for the company in the last 10 years (excluding the exceptional quarter in 2016 on a low base of 2015). NEST's increased focus on enhancing its rural footprint has started yielding results. During the quarter, the company registered strong volume-led growth in rural markets.

**Strong performance across portfolios:** The prepared dishes and cooking aids business continued its growth momentum in Q1 and delivered strong growth across products. Confectionary posted robust growth as well, led by *Kitkat* and *Munch* which were backed by strong consumer engagement, media campaigns and innovation. NEST gained market share and delivered high growth in the beverages business driven by *Nescafe Classic, Nescafe Sunrise,* and *Nescafe Gold*.

**Margins impacted by cost inflation:** NEST's gross profit margin contracted by 110bps QoQ/160bps YoY to 54.9% in Q1CY23 owing to inflation in agricultural commodities. Prices of milk and its derivatives, wheat flour and edible oil were relatively higher during the quarter and only partly offset by better realisations. EBITDA margin at 22.7% contracted 20bps QoQ and 50bps YoY.

**Maintain BUY:** The stock is trading at 65.1x/56.2x CY23E/CY24E EPS. We raise our CY23/CY24 EPS estimates 6%/8% to bake in the stellar Q1 print, leading to a new TP of Rs 24,670 (vs. Rs 22,860). Our target is set at an unchanged P/E of 67x on CY24E EPS, in line with the long-term mean. We reiterate BUY as NEST continues to outperform peers in a challenging economic climate supported by strong consumer engagement, new launches, and a strategy of penetration-led volume growth. We expect sustained growth momentum underpinned by investments in innovation and premiumisation, direct reach expansion with a rural focus, and forays into newer categories.

# Key result takeaways

- NEST's domestic sales for Q1CY23 increased by 21.2% YoY driven by strong double-digit growth across product segments. The company delivered robust 24.9% YoY growth in global markets through both mainstream and ethnic channels.
- Margins were impacted during the quarter due to higher costs of key raw materials, including milk and its derivatives, wheat flour and palm oil.
- NEST is witnessing early signs of softening in prices of commodities such as edible oils, wheat, and packaging materials. However, management expects costs of fresh milk, fuels, and green coffee to remain firm because of a sustained increase in demand and market volatility.
- The company's increased focus on rural and semiurban areas (RURBAN) continues to deliver dividends, as reflected in volume-led growth in rural markets in Q1.
- Out-of-home consumption posted a strong performance with growth across brands, channels, and geographies. E-commerce continued to do well with significant growth in quick commerce.
- Prepared dishes and cooking aids delivered robust growth across all products in the food portfolio, aided by market presence, media campaigns and focused consumer activations.
- Milk products and nutrition registered high double-digit growth, despite rising commodity prices. *Gerber* cereals and *Ceregrow* grain selection performed well. *Milkmaid* continued to post strong growth during the quarter.
- Confectionery displayed robust growth led by *Kitkat* and *Munch*, supported by focused trade plans and strong consumer engagement.
- Beverages continued to do well. *Nescafé* recorded its highest ever market share, and *Nescafé* RTD and out-of-home also delivered strong growth.
- The pet food business continued to build on its momentum with new products launched within the cat portfolio.
- NEST launched *ThickenUp Clear*, a food and beverage thickener that can be used to help patients with swallowing difficulties, especially in oropharyngeal dysphagia.
- The company in April declared an interim dividend of Rs 27/sh for CY23, amounting to Rs 2.6bn.

# Valuation methodology

NEST continues to outperform peers in a challenging economic climate supported by strong consumer engagement, new product launches and a strategy of penetration-led volume growth. We expect the company to sustain its growth momentum underpinned by continued investments in innovation and premiumisation, expansion of its direct reach with increased focus on rural markets, and forays into newer categories.

The stock is trading at 65.1x/56.2x CY23E/CY24E EPS. We raise our CY23/CY24 EPS estimates 6%/8% to bake in the stellar Q1CY23 print, leading to a new TP of Rs 24,670 (vs. Rs 22,860). Our target is set at an unchanged P/E of 67x on CY24E EPS, in line with the long-term mean – maintain BUY.
