17 August 2020

### Macro developments

- RBI approved a transfer of Rs 571.3bn for the accounting year 2019-20 to the government, while maintaining the contingency risk buffer at 5.5%. Last year, RBI had transferred Rs 1.76tn inclusive of Rs 1.23tn as dividend and Rs 526bn from surplus capital to the government. This comes in the wake of the economy struggling with record fiscal deficit on account of revenue shortage due to imposition of lockdown.
- Industrial production in the US rose by 3% in Jul'20 on a MoM basis versus 5.7% rise in Jun'20, with growth in manufacturing sector easing (3.4% from 7.4%). Separately, retail sales in Jul'20 rose by 1.2% versus 8.4% in Jun'20. While headline print was dragged down by motor vehicles, building material and clothing, spending on electronic items and health care items remained steady.
- GDP growth in the Euro Area contracted by a record 12.1% (QoQ) in Q2CY20 versus 3.6% decline in Q1. Separately, employment rate also declined by a record 2.8% in Q2 versus a drop of 0.2% in Q1, due to lockdowns. Trade surplus of the region rose to € 21.2bn in Jun'20 versus € 19.4bn in Jun'19, as imports fell at a faster rate than exports.
