Macro developments

- In an effort to boost SCBs liquidity, RBI has extended the MSF relaxation till 31 Mar 2021 from 30 Sep 2020 earlier. Under this facility, RBI had increased the borrowing limit for SCBs from 2% to 3% of NDTL in Mar'20. This is expected to provide liquidity of Rs 1.49tn. Earlier as well through MSF cut, liquidity worth Rs 1.37tn has already been infused.
- In the ongoing Kharif marketing season (2020-21), government has already procured paddy worth Rs 0.1bn in over 2 days at MSP of Rs 1,868 per quintal. This comes in the wake of the farm bills passed by the government wherein concerns were raised over continuation of MSP. Government has kept the procurement target of 49.5mn ton for this year, compared with actual procurement of 51mn ton in 2019-20 (as of now).
- World Bank expects GDP growth in East Asia and Pacific (EAP) to moderate to 0.9% in CY20, slowest pace since CY67 versus 5.8% in CY19. China is expected to grow by 2% in CY20 versus 6.1% in CY19 supported by government spending, exports and effective containment of COVID-19. GDP growth in rest of EPAC is expected to contract by 3.5% led by a sharp contraction in tourism and trade.
