MDF traction to continue

SUMMARY
Greenpanel Industries

We recently hosted a roadshow with the management of Greenpanel Industries (GREENP). Following are the key takeaways: (1) India's MDF industry has a capacity of 1.3-1.35mn CBM per year against demand of ~1mn CBM per year. The MDF market is growing at 14-15% p.a. (2) Management expects 60% utilisation of MDF capacity in FY20 and 78% in FY21. Exports should contribute 30-35% of the company's segmental sales. Better utilisation is guided to raise operating margins to ~17%/~18% in FY20/FY21.

MDF traction to continue

We recently hosted a roadshow with the management of Greenpanel Industries (GREENP). Following are the key takeaways:

- India's MDF industry has a capacity of 1.3-1.35mn CBM per year against demand of ~1mn CBM per year. The MDF market is growing at 14-15% p.a.
- The MDF market has not seen further price correction over the past few quarters and management does not foresee pricing pressure ahead.
- About 35-40% of the domestic demand is met by imports. MDF imports are higher in coastal areas with South and West India seeing a sizeable share.
- The industry's demand for a countervailing duty (CVD) on MDF imports is currently under scrutiny by authorities. GREENP is hopeful of CVD on MDF over the next six months which will prove beneficial for domestic players. About 65-70% of total imports comprise thick MDF where the import price is 8-10% lower than that of domestic manufacturers.
- In 9MFY20, GREENP derived 34% of MDF volume sales from exports (~18% in 9MFY19) – its key markets include the Middle East, Korea and Sri Lanka.
- Management expects 60% utilisation of MDF capacity in FY20 and 78% in FY21. Exports should contribute 30-35% of segmental sales. Better utilisation is guided to raise operating margins to ~17%/~18% in FY20/FY21.
- The company has been focusing on domestic distribution and now has over 1,060 dealers across India (vs. 921 as on Mar'19). It plans to continue scaling up its reach and enhance focus on smaller cities to widen the market.
- The plywood facility can generate peak revenues of Rs 3bn-3.2bn which should be reached in FY22. For FY20/FY21, management expects turnover of Rs 2.2bn/Rs 2.6bn. Margins from this segment are guided to hold steady at ~13%.
- GREENP has scheduled debt repayment of Rs 720mn each year for FY21 and FY22, with plans to repay an additional Rs 500mn in each of these years. Total debt in FY20 is expected to reduce by ~Rs 900mn to ~Rs 5bn (D/E guided to come down from 0.9x in FY19 to ~0.4x in FY22).
