Wholesale inflation remains elevated

NUVOCO VISTAS CORPORATION | TARGET: Rs 345 | +1% | HOLD

Steady show; full impact of cost yet to unfold, Retain HOLD

SUMMARY**INDIA ECONOMICS: WPI**

For Jun'26, headline WPI (2022-23=100) has risen to 9.9% from (-) 0.4% in Jun'25. At the same time, output PPI indicates that headline index rose by 9.6% versus (-) 0.1% last year. In the latest WPI series, all major group heads (food, fuel and manufactured products) have contributed to the elevated inflation print. Food inflation remains a major driver, with vegetables, fruits, milk, eggs and meat product all exhibiting upside pressures. Within fuel inflation, mineral oil index remains on the higher side, with index for crude petroleum, natural gas, ATF, LPG, Naphtha all rising notably. Similar trends can be noted in output PPI as well.

Wholesale inflation remains elevated

For Jun'26, headline WPI (2022-23=100) has risen to 9.9% from (-) 0.4% in Jun'25. At the same time, output PPI indicates that headline index rose by 9.6% versus (-) 0.1% last year. In the latest WPI series, all major group heads (food, fuel and manufactured products) have contributed to the elevated inflation print. Food inflation remains a major driver, with vegetables, fruits, milk, eggs and meat product all exhibiting upside pressures. Within fuel inflation, mineral oil index remains on the higher side, with index for crude petroleum, natural gas, ATF, LPG, Naphtha all rising notably. Similar trends can be noted in output PPI as well.

Sonal Badhan
Economist

In contrast, input PPI shows that upside pressure (MoM) was visible in only 8 of the 21 manufactured product indices (basic metals, machinery, beverages, textiles, electrical equipment, etc.). Going forward, with renewed tensions between US and Iran and possible imposition of safety tax (20%) by the US, upside risks remain for international oil prices. Oil prices in Jul'26 so far have already risen by ~19% since end-Jun and are hovering above US\$ 85/bbl. This will reignite pressure on domestic inflation.

New WPI series (2022-23=100)**Food inflation comes in higher:**

Headline WPI inflation rose to its highest in the current series (since Apr'24) to 9.9% in Jun'26, up from 9.7% in May'26 and (-) 0.4% in Jun'25. Compared to Jun'25, food inflation was much higher at 6.1% versus (-) 1.6% last year. A broad-based increase was visible across all sub-segments: food grains, vegetables, fruits, milk, eggs, meat & fish, and condiments & spices. Vegetable inflation rose to 5% from (-) 28.6% last year, due to base effect. Within vegetables, price index for tomato, ginger, and pumpkin has risen sharply followed by increase noted in case of onion, pointed gourd, capsicum and cucumber. Amongst the fruits, orange, lemon, guava, and peach were added to significant upside pressures.

Milk inflation was up from 2.5% last year to 3.7% this year, and eggs, meat and fish component registered a rise from 0.9% in Jun'25 to 9.5% in Jun'26. Amongst the meat items, price index for goat meat, eggs, beef & buffalo meat and pork registered double-digit increase. Index for condiments was driven up by all sub-heads except for cumin and tamarind. Food grain inflation too rose to 1.6% from (-) 2.3% last year, due to rise in index for paddy, jowar, ragi, barley, pulses (all sub-heads excluding gram, rajma, and khesari). On the other hand, wheat inflation softened (0.8% versus 3.3%).

research@bobcaps.in

Volume growth tepid focus on realization gain: Volumes gained ~4% YoY (fell 12% QoQ) to ~5.3mt, driven by state pre-election demand in East and steady demand in North/West. Price hikes taken in April partially sustained but helped realisations gains ~6%/8% YoY/QoQ to ~Rs5,400/tn. Continued premiumization also aided pricing gains. Capacity utilization improved to ~84% compared to 80% YoY.

Cost inflates; optimization limits impact: Overall cost/tn inflated by ~5%/7% YoY /QoQ to ~Rs4,831/t, led by higher fuel, freight and packing costs. Energy cost rose ~5% YoY to ~Rs1,056/t as petcoke prices touched USD164/tn during Q1 versus ~USD100/tn YoY, though fuel mix optimising partially limited the impact. Freight costs shot up by ~3% YoY due to higher diesel prices and limited wagon availability. Further, granule prices inflation spiked the packing bag costs. Cement-to-clinker ratio was 1.73x (vs 1.74x YoY).

Margins resilient despite inflationary pressure: EBITDA/tn improved ~5% YoY to ~Rs1,072/t, supported by higher realisations partially offset the input costs inflation and further limited higher capacity utilisation. EBITDA margins expanded (~11bps YoY), and EBITDA jumped 10% YoY to Rs5.7bn. Key monitorable would be fuel, freight and packaging cost warranting further price hikes to maintain margin.

Capacity expansion gather pace: Nuvoco commissioned the 2mtpa Surat grinding unit ahead of schedule, strengthening its Western footprint. The Vadraj project remains on track for phased commissioning from Q3FY27, while construction of the 1.5mtpa Sachana bulk terminal has commenced. The East expansion also remains on schedule, with total cement capacity targeted to reach 35mtpa by FY28.

Maintain earnings and retain HOLD rating: Our EBITDA and PAT estimates for FY27/FY28 are retained. We factor in the capacity addition and new foot print in west. We are watchful of the cost inflation. We build a revenue/EBITDA CAGR of ~5%/7% over FY26-29E backed by new capacities. We value the stock at 8x EV/EBITDA (1-yr forward) with revised TP of Rs345 (vs Rs334) on roll over to Q1FY29. Higher debt stays a key risk. Maintain HOLD.
