Logistics | Monthly Tracker

Recovery rolls ahead

SUMMARY

Logistics: Monthly Tracker

Most high frequency indicators maintained their upward trajectory in November. Container rail traffic grew at a robust 12.5% YoY and total rail freight grew 9% YoY. After falling for eight successive months, major port cargo rose 3% as well, with broad-based growth across commodities. Traction in these lead indicators augurs well for logistics companies in our universe. Nevertheless, sustained consumption demand following the festive season holds the key to a steady revival. VRL Logistics is our top pick in the sector.

Container rail traffic gathering steam: Container freight carried by the Indian Railways (IR) grew at a strong 12.5% YoY in Nov'20 (9.3% in Oct'20), the highest growth in over two years. EXIM volumes accelerated by 10% YoY while domestic freight posted the fastest YoY growth since Jun'17 at 23%. After registering declines for each of the first five months of FY21, total rail container traffic has risen 10% YoY during Sep-Nov'20 – a strong revival which bodes well for container rail operators such as Container Corp. The MoM change in EXIM container rail volume (-2.5%) was in line with container traffic at major ports (-2.4% MoM on tonnage), indicating stable market share for rail.

Growth in rail freight volume eases but still healthy: Total freight carried by IR grew by 9% YoY, slower than the 15% rate in Oct'20. Growth was broad-based across commodities, with foodgrain (+67% YoY), cement (+26%) and steel (+20%) growing the fastest, while coal declined marginally (-0.7% YoY).

Major port cargo growth back in positive territory: After declining for eight consecutive months, cargo at major ports grew 3% YoY in Nov'20 vs. a 1% YoY dip in Oct'20. Kolkata (+24% YoY), Mormugao (+23% YoY), Paradip (+17%), Cochin (+17%) and JNPT (+9%) catalysed this growth, while Ennore (-23%), New Mangalore (-21%), Tuticorin (-20%) and Mumbai (-12%) posted YoY declines. Among commodities, coking coal (+44%), iron ore (+19%) and container (+11%/+9% YoY in tonnage/TEU) grew the fastest. POL (-12% YoY) continued its decline and fertiliser volumes also slipped (-5%).

Core import decline eases, e-way bill generation steady: Core EXIM (non-oil, non-gold merchandise trade) fell 1% YoY after a flat showing in Oct'20. Though the fall in core imports eased to 2% YoY (-5% in Oct'20), non-oil, non-gold exports fell by 0.4% vs. 6.5% growth in the previous month. Total e-way bills generated rose 8% YoY to 58mn in Nov'20.

RECOMMENDATION SNAPSHOT

Ticker	Rating
AGLL IN	ADD
CCRI IN	SELL
MAHLOG IN	BUY
TCIEXP IN	BUY
TRPC IN	BUY
VRL IN	BUY
