Revenue above expectations: Goodluck India (GLIN) reported revenue at Rs13,498mn, (+37.9%YoY, +6.0%QoQ) and was 11% above our estimates. EBITDA came at Rs1,162mn (+26.6%YoY, -13.8%QoQ) and was 1% below our estimates. The better-than-expected revenue performance was owing to better volumes and realisation.

Volumes performance: Sales volumes stood at 0.13mnt in Q2FY27 (+18.1% YoY, +8.7% QoQ), This was driven by higher volumes from exports market which grew by 38%YoY. Utilisation was 99%.

Pricing performance: Realisation stood at Rs101,323 (+16.9%YoY, +4.3% QoQ). Realisation improved as company is able to pass on input costs. EBITDA/t came at Rs8,079 on better realization, lower by 0.6%YoY and 1.6%QoQ.

Standalone revenue increased by 38.1%YoY to Rs13,514mn and EBITDA increased by 17.4%YoY to Rs1,077mn in Q2FY27.

Outlook on growth: Goodluck India has invested in Hydraulic tube plant and Defence business subsidiary. Hydraulic tube plant's utilisation is at 60-70% and plans to ramp up to 80% in H2FY27. Defence will scale up with execution increasing in FY27-FY28E. These initiatives are expected to drive incremental benefits over FY27E – FY29E. We estimate Defence subsidiary to generate a revenue of Rs2,000mn in FY27E & Rs8,500mn in FY28E.

Maintain BUY; revise TP upwards: We maintain BUY; considering improved performance & rollover to Sept.28, raise TP to 593 from Rs583, based on 10xEV/EBITDA on Sept.28E EBITDA.

Call Highlights

- **Performance:** Volumes came in at 0.13mnt, +18.1%YoY and +8.7%QoQ. Revenue growth was supported by higher volumes in various segments and exports. Export revenue grew by 38%YoY and contributed 28% of total revenue. Capacity utilization was 98%.
- Management expects growth momentum to continue, on the back of strong opportunities in Infra, transmission structures, railways and automotive segment. It plans to increase capacity through debottlenecking going forward to drive growth in core business.
- **Blended realisation improved:** Realisation increased 16.9%YoY and 4.3%QoQ driven by the pass-through of higher input costs amid improving steel prices. Given healthy product demand, the company has been able to pass on the increase in input costs. Improving product mix towards higher margin value-added and specialized products (including Defence), better capacity utilization and operational efficiencies led to EBITDA expansion.
- **Hydraulic tube plant:** GLIN operated the plant with 65-70% utilization. This is expected to be ramped up to 80% in H2FY27
- **Defence & Aerospace business (subsidiary):** The business reported zero revenue in Q2. Management commented that order book is strong and are on track to achieve target of Rs3,000mn for FY27E with EBITDA margin of 30-35%. The business has an impressive order pipeline, supported by the current demand-supply mismatch and the government's focus on indigenous defence manufacturing.
    - The company is increasing its capacity from 150,000 shells to 400,000 shells. Incremental capacity will be commissioned by Q4FY28E.
    - The Board has approved in Oct. 2026 a merger of Defence subsidiary into Goodluck India. Detailed terms will be disclosed in future.
- **Capex:** Incurred capex of Rs1,436mn in H1FY27.;Standalone capex is guided at Rs1,000mn – 1,500mn for FY27E. Capex for defence expansion of Rs4,000mn will be spread over FY27E and FY28E.
- **Net debt:** Net debt increased to Rs10,466mn on Sept.26 from net debt of Rs10,701mn as on Mar'26. Consolidated gross debt stood at Rs13,510mn. Net D/E stood at 0.6x.

Valuation Methodology

We remain positive on growth over long term. The investment in Hydraulic tube plant will help drive the business growth, with a ramp-up in operations. Going forward, the existing business will continue providing a decent growth, while the Defence subsidiary will likely bring in incremental business over FY27E – FY29E.

Numbers have been revised up to account for the better pricing performance.

- **Core business:**
  - **Sales volumes** – Estimates volumes to grow at 6.3% vs the earlier 3.6% for FY27E; kept unchanged at 1.5% growth for FY28E and unchanged at 0.5% growth for FY29E.
  - **Pricing** – Estimate pricing growth of 12.0% vs the earlier 3.0% for FY27E, kept unchanged at 1.0% growth for FY28E and kept unchanged at 1.0% growth for FY29E.
- **Defence subsidiary:** Estimates moderated bit for FY28E and FY29E. Defence subsidiary revenue estimate kept unchanged at Rs2,000mn for FY27E, at Rs8,800mn vs earlier Rs9,000mn for FY28E and at Rs9,700mn vs earlier Rs9,900mn in FY29E. EBITDA margin estimated to be in the 28.0-29.5% range.

EV/EBITDA based Valuation Rationale

We maintain BUY. Considering improved performance & rollover to June 28, raise TP to Rs593 from Rs583, based on 10xEV/EBITDA on Sept.28E EBITDA. The multiple is at a discount to Average multiple of peers who are in the pure pipe sector and is in line with its last 10Y average multiple.

Key Risks

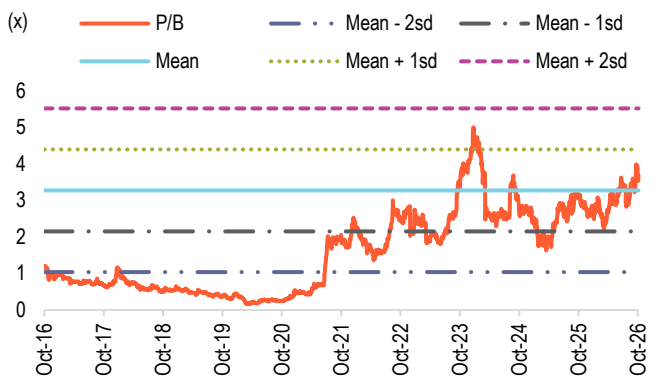

Competition in Defence segment can moderate margins overtime: GLIN is currently working on Defence projects through Artillery shells and aerospace parts. Any increase in competition in these initiatives can lead to moderation in margins and can impact the company's growth profile and valuation.

It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Before acting on any advice or recommendation in this material, clients should consider whether it is suitable for their particular circumstances and, if necessary, seek professional advice. BOBCAPS research reports follow rules laid down by Securities and Exchange Board of India and individuals employed as research analysts are separate from other employees who are performing sales trading, dealing, corporate finance advisory or any other activity that may affect the independence of its research reports.

The price and value of the investments referred to in this material and the income from them may go down as well as up, and investors may realize losses on any investments. Past performance is not a guide for future performance, future returns are not guaranteed and a loss of original capital may occur. BOBCAPS does not provide tax advice to its clients, and all investors are strongly advised to consult with their tax advisers regarding any potential investment in certain transactions — including those involving futures, options, and other derivatives as well as non-investment-grade securities — that give rise to substantial risk and are not suitable for all investors. The material is based on information that we consider reliable, but we do not represent that it is accurate or complete, and it should not be relied on as such. Opinions expressed are our current opinions as of the date appearing on this material only. We endeavour to update on a reasonable basis the information discussed in this material, but regulatory, compliance, or other reasons may prevent us from doing so.

We and our affiliates, officers, directors, and employees, including persons involved in the preparation or issuance of this material, may from time to time have "long" or "short" positions in, act as principal in, and buy or sell the securities or derivatives thereof of companies mentioned herein and may from time to time add to or dispose of any such securities (or investment). We and our affiliates may assume an underwriting commitment in the securities of companies discussed in this document (or in related investments), may sell them to or buy them from customers on a principal basis, and may also perform or seek to perform investment banking or advisory services for or relating to these companies and may also be represented in the supervisory board or any other committee of these companies.

For the purpose of calculating whether BOBCAPS and its affiliates hold, beneficially own, or control, including the right to vote for directors, one per cent or more of the equity shares of the subject company, the holdings of the issuer of the research report is also included.

BOBCAPS and its non-US affiliates may, to the extent permissible under applicable laws, have acted on or used this research to the extent that it relates to non-US issuers, prior to or immediately following its publication. Foreign currency denominated securities are subject to fluctuations in exchange rates that could have an adverse effect on the value or price of or income derived from the investment. In addition, investors in securities such as ADRs, the value of which are influenced by foreign currencies, effectively assume currency risk. In addition, options involve risks and are not suitable for all investors. Please ensure that you have read and understood the Risk disclosure document before entering into any derivative transactions.

No part of this material may be (1) copied, photocopied, or duplicated in any form by any means or (2) redistributed without BOBCAPS's prior written consent.
